The Five Conditions for Learning, live online

Can't make it to the institute in Chicago? Start here. In 2 hours, you take part in a learning simulation with the group, and then Dr. Stephanie Helfand teaches the five conditions every brain needs in order to learn.

WHAT WE WILL DO TOGETHER

- **A learning simulation.** You experience the conditions for learning in your own brain before we name them.
- **The five conditions.** **How I Function**, **How I Learn**, **How I Manage**, **How I Feel**, and **What I Do**, each in plain language.
- **The question to ask.** Practice asking which condition for learning is not being met, so you can choose a response that fits the cause.
- **The free guide.** Leave with the guide to the five conditions to share with your team or family.
